Book condition

Condition ratings take account of the age of the book as well as its 'absolute' condition. Thus, a 20-year old book graded VG would be in better overall condition than a 100-year old book graded similarly, I tend to be 'severe' as regards gradings – I would prefer that a book was better than you expected, not worse. The descriptions are not fully detailed, but generally list defects which can easily make a book sound as if it is in worse condition than it really is. However, the combination of the grading and any specific comments should give a reasonable idea of the book. That said, feel free to get in touch and ask for further details of any book. If no comment is made about the inside of a book it is bright and clean.

I am always happy to talk (some would say endlessly!) about books and all things John Buchan.

Books

- F Fine – almost as good as new. Any defects will be of a very minor, and almost imperceptible, nature.
- VG Very good – in good sound condition commensurate with its age and with gentle use. The corners will probably be lightly rubbed, there may be intermittent light foxing, and the spine is likely to be lightly rubbed at the ends. The edges of the text block will probably be foxed. If the spine is faded or there is a bookplate or an inscription the book will be downgraded to VG-. Similarly, a book in exceptional, but not fine, condition, would be graded VG+.
- G Good – a well-used old friend. Faded spine, wear and handling stains, a loose binding, foxed/browned pages are all likely. However, the book should be complete. If there is only one or two of these defects the grading will be G+.
- P Poor – Well-ravaged rather than well-used. Major defects will be present and highlighted in the description.

Dustwrapper (d/w) – also known as dustjacket (d/j) in many parts of the world.

- F as above.
- VG Clean and bright and free from tears or missing pieces. There may be rubbing/light wear at the corners and round the edges. and it may be price-clipped. If there are some closed tears and wear/sun fading of the spine the grading will be VG-.

- G Ragged and worn around the edges and possibly some small pieces (chips) missing. G+ would signify reasonable rather than worn in overall appearance.
- P Major defects such as large pieces missing, severe sun-fading or very dirty/stained.

Book descriptions – other terms

Bumped and rubbed – corners bumped rubbed.

Ex-lib - book which was formerly in a public or circulating library and thus may have various stamps and labels on the preliminaries and may have the occasional rubber stamp within the main body of the book.

EPP – endpapers (FEPP – front; REPP – rear)

Inscribed (or inscr.) – for the sake of brevity this covers anything written in the preliminaries whether simply an owner's signature or a lengthy presentation inscription.

o/w - otherwise

Sl – slight or slightly, depending on context.

Books for disposal

I am always interested in acquiring good quality Buchan material. My aim is to offer a fair price for any books, generally higher than other dealers. Additionally if, when cataloguing books, I discover that the value is higher than my original estimate for some reason I will make an additional payment. If, however, a book is worth less than my estimate that is my problem!

Valuations

A recent query alerted me to the fact that insurance companies are becoming more fussy about valuations for items covered. If you have a valuable collection of books are you sure they are fully insured? If a written valuation is required based on information supplied by you I am able to supply one for a fee of 0.4% (+ VAT) of the valuation. Thus, a valuation of a collection worth £10000 would cost £40 + VAT. Similarly, probate valuations can be supplied. If a visit to inspect and value books was required any fee and expenses would be arrived at by prior negotiation. This service is not restricted to Buchan titles.

NB Please note that this catalogue lists only a small fraction of my current stock and concentrates, though not exclusively, on stock acquired since the last catalogue. In particular, I have many other copies of the books listed at varying prices so please enquire if there is anything you are specifically looking for. All prices in GNP (abbreviated £)

**John Buchan fiction in
Hodder & Stoughton Yellow Jacket edition.**

Mostly red or blue cloth with black lettering. Dustwrappers generally (but not always) indicate 'Yellow Jacket' series. There are 2 slightly different sizes in the series. Large books (19 x 12.5 cms) come with or without antlers on the spine. Small books (18 x 11.5 cms) do not have antlers and the title is often in a diagonal rectangle. From around 1950 to the mid-1970s the title 'Yellow Jacket' was dropped but books of a similar format and generally of a yellow shade were published. Within these broad categories there are a host of minor variations. All titles in stock are listed below. Please enquire for full details.

Signed £ 32

Ordeal by Marriage

Ordeal by Marriage is one of the least well-known and also one of the rarest of John Buchan's works. Initially published in very small numbers in 1915 its only reappearance in print, as far as I am aware, has been in *John Buchan's Collected Poems* edited by Andrew Lownie and William Milne, published in 1996.

It is described by Robert G Blanchard in his bibliography as "a poetic round-table discussion of various aspects of the marriage relationship". Susan Buchan (Lady Tweedsmuir) referred to it as "a private joke written for a group of friends and quite incomprehensible to anyone else".

This new reprint is published by SMS Books, bound in white card covers and has an introduction by Peter Thackeray.

The price, incl. postage, is **£5 (UK), £6.50 (Europe) and £7 (ROW)**.

A full leather-bound copy on high quality paper has already been produced and I can supply further copies in bespoke leather or cloth bindings. Details on request.
